Weekly Recap:

Parts list was semi-ordered. A work around is needed for backordered parts. Still waiting for parts to arrive. Worked on Design Documentation

Meeting Overview:

March 10, 2015 - **Meeting-09**

Duration: x Hours

Attendance - **09**

William Park	Google Hangouts
Nick Plutt	Google Hangouts
Aaron Reyes	Google Hangouts
Josh Cline	Google Hangouts
Nick Gonner	Google Hangouts

- i. Parts list was ordered (half). Some of the parts were back-ordered so we had to find replacement / alternative parts for the system. That list was also sent to Jeremias/EnSoft.

DEC15-04

- ii. We reviewed the design documentation. Members worked on adding sections to the design documentation.
- iii. Other than that, we are still waiting on parts to arrive to us to start actual programming / testing / working on a prototype.

Accomplishments this week:

09 - Parts list was ordered. Back-ordered parts were given alternatives so that the parts arrive on time.

Pending Issues:

09- We have to wait for the parts to come in. This downtime, we will consult as separate teams (Software / Hardware) to see what sort of planning and route we need to take. The software side has a skeleton app that is uploaded to Git that we will be using to work with.

- Design documentation had a little confusion on what needed to be done. Since spring break was during this timeframe, lost contact with members.
- Parts were back-ordered. We have to wait for alternatives to arrive in replacement of the original parts.

Planning:

09

- i. We have to wait for the parts that we ordered. (*Continued*)
- ii. Set up 2 mobile applications. (1 for the Physician | 1 for the client) (*Continued*)
- iii. Have prototype setup / basic application with data transfer by the end of this month going into April. (March - April) (*Continued*)
- iv. Team communication needs to be stronger. Google Hangouts in the form of SMS should be included on all phones / laptops. (Will talk in the next meeting 3-24)
